

Today's Library Copy & Print Cost Recovery Self-Service Coin-Op Payment Station

Presented by:
Darrell G. Rademacher
VENDAPIN LLC
Managing Director

Overview

- The scope of this project is to provide the library market the latest updates of the development of the today's coin-op & debit VendaCard systems offered by VENDAPIN LLC.
- The objective is for VENDAPIN LLC to demonstrate to the Librarian the “state-of-the-art” new Raptor II coin-op system that can be used for interfacing to copiers & printers for cost recovery of operation of copiers & printers.

Model 5596XL

- VENDAPIN is introducing today's generation model 5596XL coin-op Payment Station with optional acceptance of Visa, Master Card, Discover and American Express credit/debit cards.
- Now your library can vend copies/prints from both walk up patrons and network computer stations.

Model 5880 Debit VendaCard Terminal

- Uses credit card size magnetic stripe debit VendaCards
- VendaCards can be re-valued over and over
- Can be used in parallel with coin-op
- Optional automated card vendor available

Model 3396 Multi-Vend Coin-op

- Accepts nickels, dimes, quarters & dollar coins
- By-pass key
- Cash accountability

Credit Card Reader Option

- Accept Visa, Master Card, American Express and Discover credit & debit cards
- Wireless or local area network.
- Instant transfer of credit card transactions to your library bank account.
- Website instant access to all credit cards sales.

VENDAPIN's Raptor II engine in the model 5596XL copier/printer vending system has an integral web server, which permits remote configuration of any Raptor II powered model 5596XL units on a network, via a web browser.

Paper Sizes & Color/Black-White

Paper Size	Price # (1-8)	Price # (9-16)
Statement	Black-White(#1)	Color (#9)
Letter	Black-White(#2)	Color (#10)
Ledger (11x17)	Black-White(#3)	Color (#11)
Executive	Black-White(#4)	Color (#12)
Legal (8.5x14)	Black-White(#5)	Color (#13)
12x18	Black-White(#6)	Color (#14)
13x19	Black-White(#7)	Color (#15)
Other/Size Unknown	Black-White(#8)	Color (#16)

Note: The “Cash/Credit Card” purchase using the coin-op system can be operated without relying on paper sizes, such as computer vending system.

Model 5596XL API Specification

- VENDAPIN provides API specifications to 3rd party developers for their host systems to communicate to our VENDAPIN coin-op/readers via Ethernet, RS-232 or USB ports.
- Our multi-communication interfaces are designed to work with Windows, Mac, Linux and other host systems.

Model 5596XL API Specification for the Raptor II Controller Board

- Common API Commands:
 - Post Escrow (Balance) Value
 - Debit Value from Escrow
 - Credit Value to Escrow
 - Read Escrow Status
 - Read/Set Prices 1-16
 - Pay Out Changes
 - Timings

Note: Raptor II Ethernet/RS-232/USB interfaces can be used for API communication.

VENDAPIN Support

- We provide technical support to customers via phone, email, or fax.
- Technical support staff are very familiar with printers, copiers and multi-functional copy/print machines, as well as our software & hardware products.
- Operational manual is written to allow non-technical person to install & configure system without difficulty.
- Two (2) Year Warranty.

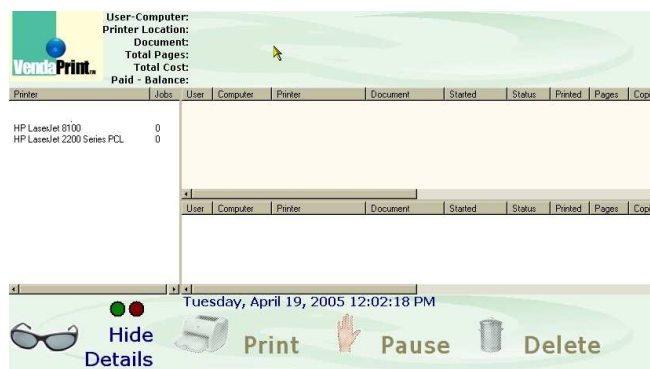

VendaPrint Print Release System

Public Access Computers
Connected to Network

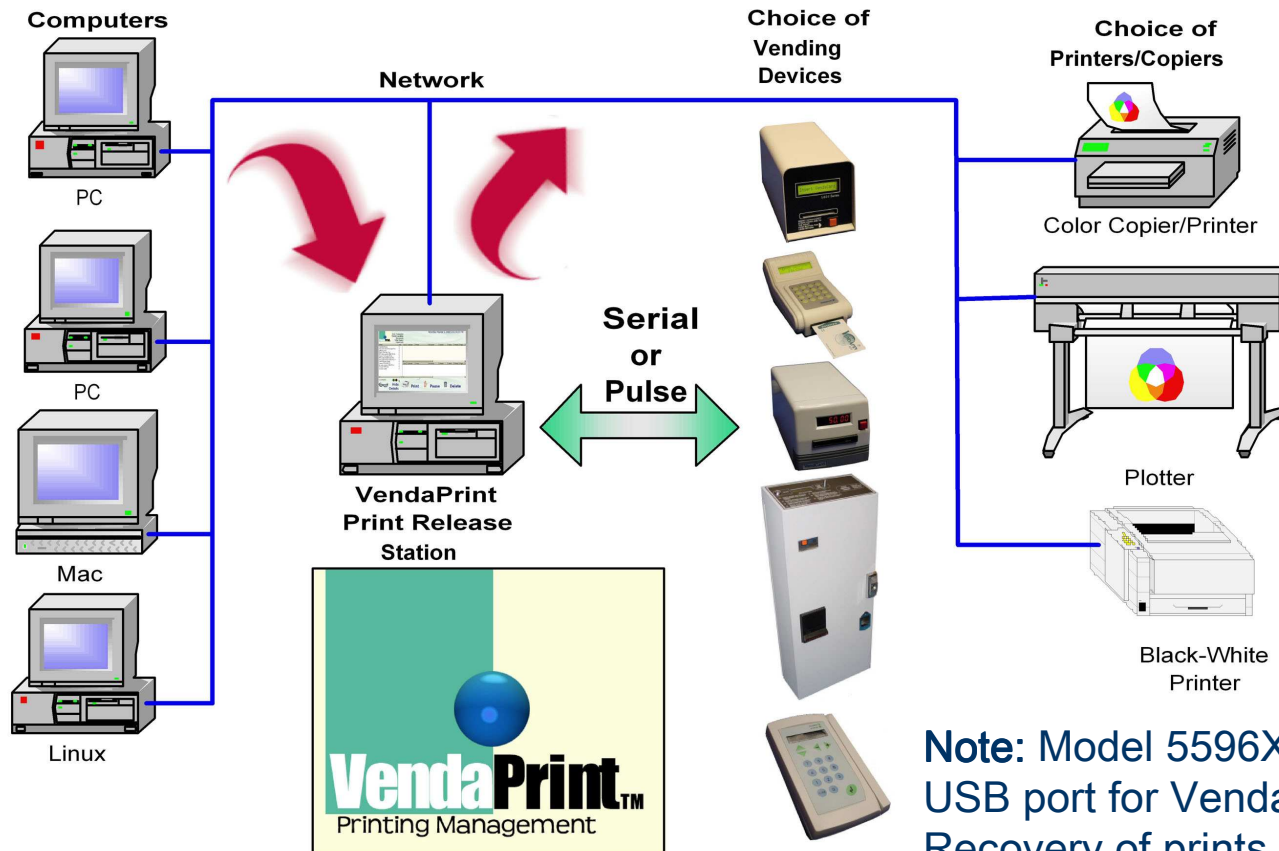

Multi-Functional Network **Color** Copy/Print Machines
or Printers Connected to Coin-Op Units

Very easy to configure!

VendaPrint Print Release Station

VendaPrint Network Setup With Unlimited Lifetime Seat Licenses

Note: Model 5596XL uses the USB port for VendaPrint Cost Recovery of prints and copies.
